## FOCUSED ON PROVIDING VALUE

Our dedication to providing customer satisfaction has been the key to our success since 1978. We bring that value to all our clients by working to complete jobs on schedule without compromising workmanship or safety.

### Safety is No Accident

At Byrne Metals, we develop customized safety plans for each job and provide employees with in-depth safety training. Our objective is to provide a safe, injury-free work environment for all of our employees. We even have a full-time safety director who helps us meet our safety goals.

### Professional Workmanship

Our commitment to quality starts at the top and is reflected by employees throughout the company. We are proud of the work we do and strive to bring high-quality workmanship to every aspect of every project.

### Texas-Based, to Serve Texas

Byrne Metals is headquartered in Humble, Texas, near Bush Intercontinental Airport, just north of Houston. This convenient location, along with our San Antonio office, gives us the ability to offer services to customers throughout the state.

Byrne Metals 65,000 SF facility in Humble, Texas.

# COMPOSITE METAL PANELS

## METALBOND®

Our exclusive METALBOND® composite panels offer advantages to building owners, architects and contractors. METALBOND® is an engineered, tested system - fabricated in our facility in Humble, Texas. It is delivered and installed by our own highly-skilled craftsmen. Custom panels are available in pre-finished aluminum, natural zinc, stainless steel, copper, brushed aluminum and titanium.

METALBOND® composite metal panels are ideal for a range of architectural applications. They have been extensively tested and engineered to the highest standards, and are used in both interior and exterior environments.

## HIGHLIGHTS

- Delivery from Humble, Texas
- Design assistance available
- Installed by expert craftsmen
- Custom curving
- Matching column covers available
- LEED credits available

College Station | Texas A&M University MREB 2

San Antonio | Broadway Office Development

Houston | San Jacinto College - Generation Park Administration Building

College Station | Blinn College - RELLIS Campus

## INSULATED METAL PANELS

Insulated metal panels are specifically designed for projects that require additional thermal efficiency and moisture protection while providing superior performance and aesthetics. We offer installation services for panels from the industry's major manufacturers.

Houston | Texas A&amp;M University ENMED

College Station | Texas A&amp;M University Center for Infrastructure Renewal

Houston | George R. Brown Convention Center

Houston | Space Center Houston

Houston | San Jacinto College LyondellBasell Center for Petrochemical, Energy, &amp; Technology

## SINGLE SKIN METAL PANELS

Single skin metal panels are an economical option for interior and exterior cladding. We fabricate and install a large variety of metal wall panels including custom profiles and high-quality products from leading manufacturers.

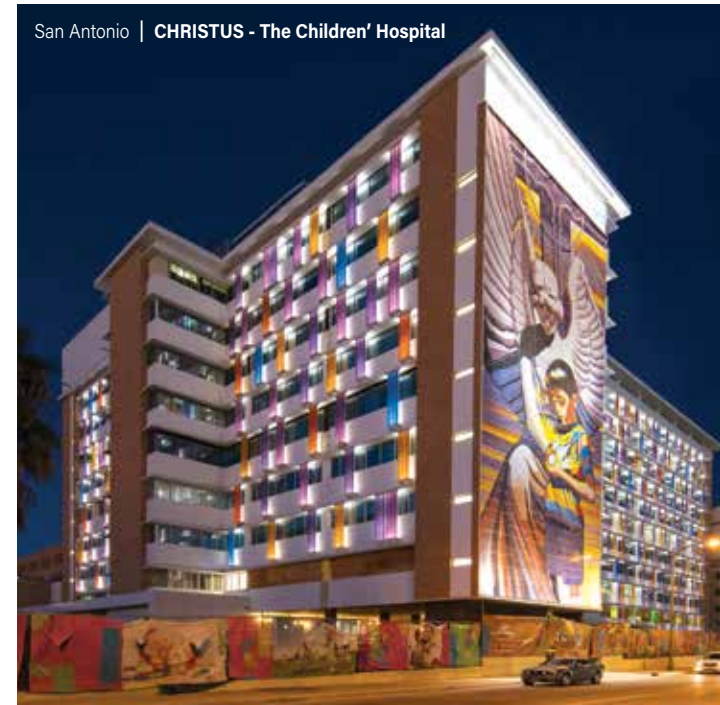

Houston | YMCA Downtown

Houston | The Gordy - Stages Theater

San Antonio | CHRISTUS - The Children' Hospital

Rosenberg | Texas State Technical College

Houston | British School

## PERFORATED PANELS

We offer custom-formed perforated panel systems in a wide variety of materials, including aluminum, steel and natural metals. Perforated panels add an interesting and functional element to spaces where ventilation is required.

San Antonio | NW Vista Garage

San Antonio | One Riverwalk Garage

San Antonio | Bexar County Public Works

Houston | Houston's First Baptist Church - Downtown

Houston | Rice University - Kraft Hall

## PLATE PANELS

Plate panels are a great way to introduce interesting and functional materials to a building's design. We offer custom-formed plate systems using materials such as aluminum, steel and natural metals. Additionally, plate panels can be painted for a clean and consistent architectural element which complements other building materials.

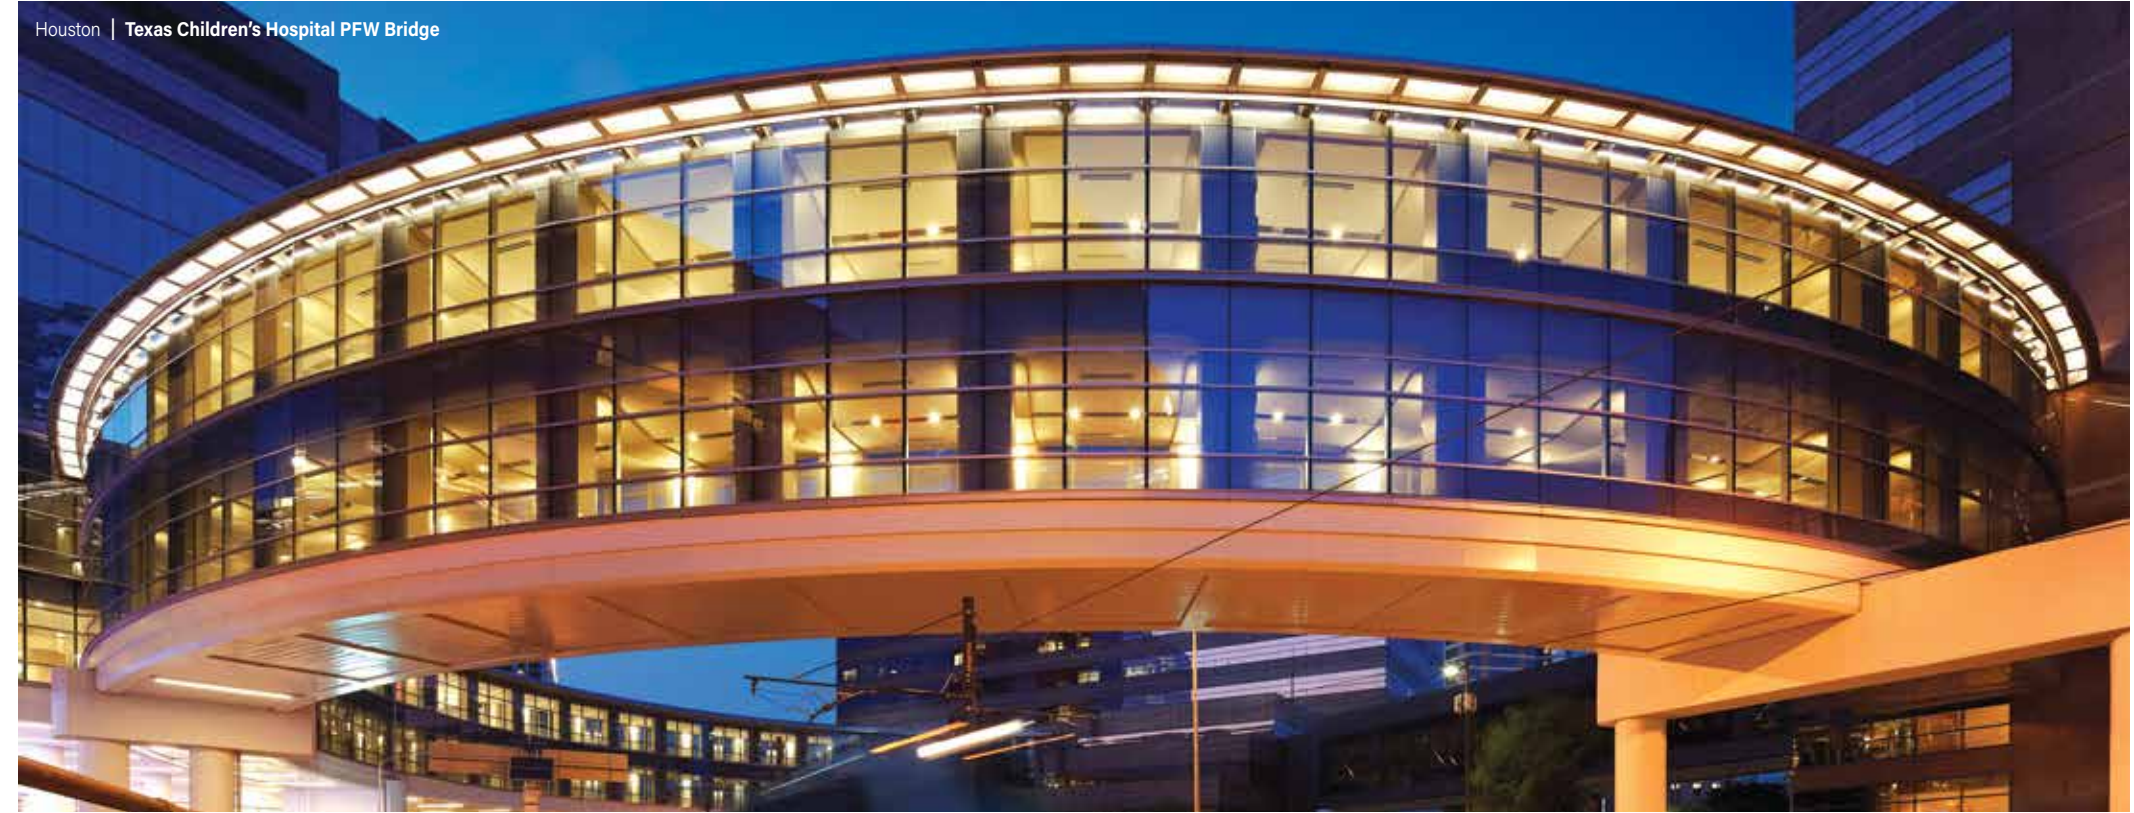

Houston | University of Houston - University Center

Houston | Houston Center

Houston | Texas Children's Hospital PFW Bridge

Midland | Chevron

Houston | Emerus Community Hospital

Houston | Houston's First Baptist Church - Cypress

## METAL ROOFING

For more than 40 years, Byrne Metals has installed high-quality metal roofing throughout Texas. We work with a wide variety of materials, including pre-finished galvanized steel, aluminum, copper, zinc and stainless steel. Our experience in custom installation allows us to install the largest and most complex projects.
